

SB 1383 Waiver Application Form

California Senate Bill (SB) 1383 is a state law that aims to reduce methane emissions created from landfilled organic materials, such as food scraps, paper towels, and yard debris. The regulations require all residents and commercial entities to subscribe to regular collection of organic materials, otherwise called “green bin service” or “compost service”. For more information on the law and its requirements, visit Recology.com/SB1383 or Novatosan.com

Some commercial businesses/entities, including multi family premises, may be eligible for a waiver from organics collection requirements if they can provide evidence to show minimal generation of organics or a physical space constraint. Please note that waivers are only valid for 5 years. An inspection may be necessary to verify qualification.

WHICH WAIVER ARE YOU APPLYING FOR? PLEASE CHOOSE ONE.	
<input type="checkbox"/>	<p>De Minimis Waiver</p> <p><input type="checkbox"/> Total solid waste collection is more than 2 cubic yards per week, and the amount of organics generated is less than 20 gallons per week.</p> <p><input type="checkbox"/> Total solid waste collection is less than 2 cubic yards per week, and the amount of organics generated is less than 10 gallons per week.</p> <p>Total solid waste collection includes garbage, recycle, and compost collection.</p>
<input type="checkbox"/>	<p>Physical Space Waiver (photo evidence required)</p> <p>There is not enough space on the premises to store dumpsters/carts/bins for all three waste streams (garbage, recycling, and organics).</p>
