## **Novato Sanitary District Recognized for 12 Years of Perfect Wastewater Treatment Performance**

Novato Sanitary District has earned the prestigious Platinum 12 Peak Performance Award from the National Association of Clean Water Agencies (NACWA) for 12 consecutive years of excellent wastewater treatment permit compliance.

**Exceptional Performance.** Only four wastewater treatment plants in California attained 12 years or more of perfect permit compliance this year and fewer than 90 nationwide.

**The District consistently meets or exceeds all daily, weekly, monthly, and annual water quality permit requirements.** This award-winning performance underscores our strong commitment to safeguarding public health and preserving the Bay environment.

**District General Manager-Chief Engineer Sandeep Karkal commented:** "I am very proud of the entire staff and Board of Directors that have earned this award. It recognizes their hard work and above-and-beyond service to our community.

**The District is also pleased to announce that Sandeep Karkal, General Manager-Chief Engineer,** has been selected to serve on NACWA's Board of Directors. NACWA is a leader in legislative, regulatory, and legal advocacy of clean water issues and a top technical resource for water management, sustainability, and ecosystem protection.

**This appointment will provide significant benefits to our District** as a member agency that shares the vision of helping build a strong and sustainable clean water future.

Customers interested in learning more may visit the District website at [novatosan.com](http://novatosan.com).

--end--

Novato Sanitary District has been providing solid waste services since 1925 and sewage collection, treatment, disposal, and recycling in and around the City of Novato since 1949. District facilities include over 200 miles of public sewers, 40 pump stations, a wastewater treatment and water recycling facility, and 800-acres of wetlands and pastureland supplied with reclaimed water.
